Conspiracy to Wreck the American Battleship Fleet.

DISCOVERED BY THE POLICE

Conspiracy, While Centering in Rio Janeiro and Petropolis, Has Ramifications in San Paulo and Minas Geraes—Police on Track.

Rio Janeiro, Jan. 21.—The Brazilian police have discovered an anarchistic plot here, having as its object the destruction of the American fleet lying in the harbor.

The conspiracy, while centering in Rio Janeiro and Petropolis, has ramifications in San Paulo and Minas Geraes.

An individual named Jean Fedher, who resided in Petropolis, was the chief conspirator here although it is understood that foreign anarchists are deeply involved in the plot. Fedher is believed to have fled to San Paulo and the police, who know him, have been at that place for the purpose of apprehending him.

One of the detectives, who was well acquainted with Fedher, having served with the police force at Petropolis for some time, returned from that place after having made investigations there and had a long conference with the chief of police at Janeiro.

The latter gave it to be understood that the Sao Paulo police are on the track of the archconspirator and expect to arrest him soon.

CAMPBELL FOUND GUILTY.

After Four Hours' Jury Brought in a Verdict of Voluntary Manslaughter. Columbus, Ga., Jan. 21.—The jury in the Wood Campbell murder case Saturday night brought in a verdict of guilty for voluntary manslaughter, and this means that the slayer of Roxia T. Edwards will serve from one to twenty years in the penitentiary for his deed. The jury was out four hours, and the verdict is regarded as a compromise one.

It is believed that a motion for a new trial has been made.

Campbell was acquitted of murder at Opelika, Ala., a year or two after the long and sensational trial for the killing of Mr. Thetford, of Phenix City, Ala., while Campbell was marshal of that town. In the present case Campbell claimed that Edwards tried to invade his home, despite warnings and also was trying to shoot him at the moment when he (Campbell) shot at him.

EXTENSION COMPLETED.

First Train Run Over New Line of Florida East Coast Road.

Miami, Fla., Jan. 21.—The first train of the Key West extension of the Florida East Coast railway went across Long Key viaduct Saturday, completing the road to Knights Key, from which steamers will be operated to Key West and Havana.

Regular passenger trains will begin running to Knights Key in a few days, the southernmost railroad point in the United States.

Considerable demonstration among the workmen attended the running of the first train across Long Key viaduct, two miles in length, and the largest structure of the kind in the world.

\$100,000 Fire at New Orleans.

New Orleans, La., Jan. 21.—Fire which started here early Sunday in the wholesale millinery establishment of Boehn & Dieth, at Iberville and Charles streets, gutted that building and badly damaged the adjoining buildings occupied by I. Kuhlmann, wholesale shoe dealer. The loss is said to amount to about \$100,000, covered by insurance.

Georgian Takes Laudanum.

Columbia, S. C., Jan. 21.—G. B. Pratt of this city, son of F. P. Pratt, of Elberton, Ga., committed suicide by drinking laudanum. He had been employed here by D. G. Jorgensen, an architect, who has moved to Atlanta and has office in the Sundler building.

LYNCHING AT DOTHAN.

Masked Men String Negro to Tree and Riddle Body with Bullets.

Dothan, Ala., Jan. 21.—Cleveland Franklin, a negro employee of the Southern Cotton Oil company, was lynched here Sunday night by a mob of masked men two hundred strong. The negro's body was riddled with bullets, where it had been swung from a limb of a tree in the northern part of the town.

Franklin shot and seriously wounded A. C. Faulk, secretary and treasurer of the oil company here after he had been caught in the act of robbing the cash drawer at the mill.

About 9 o'clock Saturday night, after an absence from the office of a few minutes, Mr. Faulk returned and found the negro on the floor under the cash drawer fumbling with the combination. He asked the negro, who was in the employ of the mill, what he was doing and was informed that Mr. Rabb, the superintendent, had sent the negro in to do some repair work and began to make other excuses.

Mr. Faulk turned to call the superintendent and ask for an explanation. The negro seeing that his ruse would not enable him to escape, pulled a gun and fired five times at Mr. Faulk, two of the shots taking effect.

The sheriff was notified immediately after the shooting and a posse was organized. A diligent search was made for the negro but without result.

Sunday morning the sheriff learned that the negro was at Webb, Ala., and later he was captured there. Franklin was brought back to Dothan by private conveyance. After putting the team up at the stable and just as the start was made for the jail, a mob of two hundred men, all masked, swooped down on the sheriff and his posse, forcibly took the prisoner, and carrying him to a point shortly above the mill, they strung him up to a limb and riddled his body with bullets.

EDITOR CHARLES SMITH DEAD.

Was Former Minister to Russia and Postmaster General.

Philadelphia, Pa., Jan. 21.—Charles Emory Smith, editor of the Press, former minister to Russia and postmaster general, died suddenly at his home in this city Sunday, aged 65 years. Death was caused by heart trouble.

Mr. Smith had held several important editorial positions. He was appointed minister to Russia in 1890.

In the spring of 1898 he was given the portfolio of postmaster general, in the cabinet of President McKinley, a post which he held through the period of the Spanish-American war and through part of President Roosevelt's administration.

The practical establishment of rural free delivery and the creation of the mail service in Cuba, Porto Rico and the Philippines marked his tenure of office as postmaster general.

ALLEGED SHORTAGE.

Alabama Agricultural Association Will Investigate the Matter.

Montgomery, Ala., Jan. 21.—At a meeting of the Alabama Agricultural association held Saturday it was decided that the alleged shortage of the 1906 fair management would be fully investigated.

A movement for the sixty directors to make good whatever shortage that is in the end found, met with general favor, and a plan agreed upon by which the bonds are to be sold and the fair put on a firm financial footing. A. G. Forbes was elected president.

Robbed Bank of \$4,000.

Texola, Okla., Jan. 21.—After a hand-to-hand battle with Assistant Cashier Jones, two masked men robbed the First National bank of Texola, of about \$4,000 in currency, at 7 o'clock Saturday evening. Jones was found an hour later, bound and gagged, and insensible from a blow on the head.

Forty Persons Injured by Collapsing Paris, Jan. 2.—In an impenetrable fog which enshrouded Paris and its suburbs, rendering all transportation most dangerous, two electric cars collided at Vitry. Forty persons were injured, several of them seriously.

SOUTH HONORS LEE

Exercises Held in Memory of the Great Gray Leader.

101st ANNIVERSARY OF BIRTH

Many Southern Cities United in Doing Honor to the Most Loved of All South's Great Sons—Banquet Given at Kimball House.

Atlanta, Jan. 21.—Sunday was the one hundred and first anniversary of the birth of General Robert Edward Lee, commander in chief of the confederate army, and the most loved of all the south's sons.

Owing to the fact that it was Sunday, the day was not observed in any special manner, but on Monday there were several public exercises in honor of the memory of the gray leader.

At 3 o'clock the Atlanta chapter of the Daughters of the Confederacy met in the house of representatives. The meeting was presided over by J. L. Anderson. Crosses of honor were presented to a number of confederate veterans, and there were a number of speeches made by prominent citizens.

At night the Virginia Society gave a banquet at the Kimball house. Another interesting event of the day was a lecture on "The Battle of Gettysburg" at the Wesley Memorial church, at 9 o'clock by Mrs. LaSalle Corbell Pickett, widow of the late General George Pickett.

Sketch of General Lee.

History has generally agreed that Robert E. Lee was not only the south's greatest son, but one of the greatest of all Americans. Coming from a long line of illustrious forefathers, he was easily the greatest of them all. With all of his illustrious deeds and his innate greatness, he was as modest as a woman.

Of the glorious General Lee's military record, both in the federal and the confederate armies, it were trite to speak. His deed of valor, his victories and his final surrender at Appomattox are known to every school boy. Of late years the north has come to recognize Lee's greatness, and he is now accorded a conspicuous place in American history—a place singularly unique.

At Savannah, Ga.

Savannah, Ga., Jan. 21.—The birthday of General Robert E. Lee was observed in Savannah Sunday by exercises in which the Savannah Volunteer Guards, the Chatham Artillery, the naval militia and the Georgia Hussars participated.

At Augusta, Ga.

Augusta, Ga., Jan. 21.—Under the auspices of the United Daughters of the Confederacy, of which Mrs. O. R. Eve is the local president, the birthday of General Robert E. Lee was celebrated on Monday in the city court room at the Richmond county courthouse. The orator of the day was G. T. Jackson, one of the most brilliant younger members of the Augusta bar. An address was made by General J. W. Clark, recently elected commander of the Georgia division, U. C. V., succeeding General Andrew J. West, of Atlanta.

At Memphis, Tenn.

Memphis, Tenn., Jan. 21.—The birthday of General Robert E. Lee was observed here Sunday with appropriate exercises, conducted under the auspices of the local camp of Confederate Veterans. Among the features of the exercises was the presentation of crosses of honor by the Daughters of the Confederacy to a number of veterans.

Unemployed Parade Streets.

New Britain, Conn., Jan. 21.—Over one thousand unemployed workmen paraded through the streets of this city Monday, the leader carrying a banner bearing the inscription "Parade of Hungry People: Looking for Work." It was explained by some of the leaders of the demonstration that "hungry" in this case meant that the men were hungry for something to do, not that they were suffering from the pangs of physical hunger. Poles, Germans, Lithuanians, French and Italians composed the majority of the marchers in line.

"BANKER-POET" DEAD.

Edmund Clarence Stedman Passes Away at New York.

New York, Jan. 21.—Edmund Clarence Stedman, widely known as the "banker-poet," died Saturday night at his home in this city from a sudden attack of heart trouble.

Mr. Stedman had suffered for several years with cardiac affection.

Early Saturday he began the preparation of a magazine article, and after a morning's work repaired to luncheon. It was while returning to his study to resume work that the fatal attack came. The poet was found a few minutes later by his granddaughter, Laura Woodworth Stedman, who hastily summoned the physicians.

Mr. Stedman, who was 75 years of age, was born at Hartford, Conn., and while a student at Yale earned distinction in English and Greek composition. After a brief editorial experience in Norwich and Winstead, Conn., Mr. Stedman took up his residence in New York city, where he was connected with several of the daily papers and with Putnam's and Harper's magazines. It was while doing newspaper work that he first gained distinction as a poet.

FIRE LOSS \$80,000.

Large Hardware Store at Winston-Salem, N. C., Burned.

Winston-Salem, N. C., Jan. 21.—This city was on Sunday visited by a destructive fire, the total damage being estimated at \$75,000 to \$80,000. The fire originated on the second floor of the building of the Brown-Rogers Hardware company, corner of Main and Fourth streets, in the rooms of the Young Women's Christian association at 7:15 o'clock. The fire departments, both white and colored, of the two cities, were called out and fought desperately for four hours.

The greatest loss is sustained by the Brown-Rogers company, wholesale hardware dealers, who carried a stock of \$75,000, with \$45,000 insurance.

The fire spread to the stores of F. C. Brown and the Winston Clothing company, the damages to these firms being estimated at \$10,000 each.

18-YEAR-OLD BOY SUICIDES.

Wound Silk Muffler Around Neck and Hung Himself to Gas Bracket.

New York, Jan. 21.—Seth Schuyler, 18 years of age, of Brooklyn, was discovered hanging dead in the bathroom of his home late Sunday. He had wound a silk muffler around his neck, and then hanged himself to a gas pipe bracket.

The theory of the police is that young Schuyler committed suicide in a fit of despondency.

The grief-stricken members of his family refuse to accept this view and his boy friends assert their belief that the young man came to his death in trying to discover experimentally the sensations the victim of an execution by hanging might feel.

Rome Dailies Merge.

Atlanta, Jan. 21.—Announcement was made in Rome, Ga., Saturday night that the Rome Tribune and the Rome Herald, two morning newspapers, have merged their interests, and that on Tuesday morning the first issue of The Tribune-Herald would be published. The last issues of the Tribune and the Herald as separate papers appeared Sunday morning, carrying announcements of the consolidation. Under the new arrangement Colonel J. Lindsay Johnson, owner of the Tribune, becomes editor-in-chief of the paper. J. D. McCartney, of the Herald, becomes associate editor, and Wilson Hardy, of the Herald, becomes manager.

Fatal Skating Accident.

Indiana, Pa., Jan. 21.—Four children were drowned at noon Saturday while skating on the reservoir at the Wharton Coal and Coke company's cove at Coral, near here. The little children were with five companions in the dam when they cut their way through the snow to a part of the reservoir, near one of the feeders. At that point the ice was but one inch thick. Suddenly about 15 square feet of ice broke and the little ones sank into the freezing waters. Their bodies were recovered an hour later.

ENTOMBED 46 DAYS

Three Miners Are Rescued From Nevada Mine.

WERE BURIED ON DEC. 4

Through the Means of a Six-Inch Water Pipe Food and Drink Were Given Them While Rescuers Were Working To Save Them.

Ely, Nev., Jan. 21.—After having been entombed forty-six days 1,000 feet below the surface in the Alpha shaft of the Giroux mine, A. D. Bailey, P. J. Brown and Fred McDonald have been rescued.

At 8:30 o'clock Thursday night Bailey was brought out. Fourteen minutes later McDonald came to the surface, while ten minutes after Brown was brought up.

Whistles all over the district blew loudly while crowds cheered in the streets of Ely and every bell in the town was ringing.

Entombed on Dec. 4.

On the morning of December 4th McDonald, Brown and Bailey and two Greeks were working in the bottom of the three compartment shaft, 85 feet below the surface. The cave-in occurred at 9 o'clock.

The cable used to haul the cage from the third compartment of the shaft snapped, and thousands of tons of rock, debris and timbers fell down into the shaft.

With falling rocks and timbers streaming down upon them, the five men struggled up ladders. Half way up falling timbers knocked the two Greeks from the ladders, killing them. Bailey, McDonald and Brown managed to reach the pump station. Its well-timbered roof withstood the rock and timber that came down the shaft, and offered shelter and safety.

At first, it was thought that all the men had perished, but twenty-four hours after the cave-in the three men who occupied the pumping station managed to make themselves heard by tapping upon the six-inch water pipe that stretched from the pumping station to the surface.

Food and Drink Through Pipe.

It was this pipe that was the means of saving the lives of the three men. When communication was once established with the world above and the men had made known the fact that they were still alive, food and drink was immediately lowered through the pipe. A large supply went down, as it was thought that the pipe communication might be cut off before the rescuing party reached the imprisoned men, but throughout their weeks of imprisonment this pipe has been in daily use.

A portable telephone was lowered and the men were able to talk with the people above. This telephone has been in almost constant use, friends sending to them by it the news of the outside world and messages of cheer.

BIRTHS AT BRONX ZOO.

Sunday Contribution to New York's Vital Statistics.

New York, Jan. 21.—Two births and a death was the Bronx zoo's Sunday contribution to the city's vital statistics. Two new born grizzly bears were found in the morning in the cage occupied by a pair of the big animals. One of them had been frozen to death in the night. The other was barely breathing.

Grizzlies born in captivity are rare and a special effort was made to save the youngster. Keeper Ferguson took it home and placed it in his wife's care.

The combination of frequent feedings of milk and care are doing wonders for the ten-ounce bear baby.

Baseball Pitcher Under Arrest.

Chicago, Jan. 21.—A man who gave his name as Arthur L. Raymond, and who said he is pitcher "Bugs" Raymond, of St. Louis National League baseball team, is under arrest here, charged with robbing George C. Mosher, a jeweler, of \$24. The police say Mosher positively identified the man as the man who robbed him.

FIRST DAY'S SESSION OF LABOR LEADERS

Many Delegates Here, Representing All Branches of Labor.

MANY SPEECHES WERE MADE

Address of Welcome in Behalf of City by Attorney Baxter—Other Speeches by Prominent Labor Leaders—First Day Was a Grand Success.

With a hall fairly well filled with delegates from every section of the State, representing the various trades unions and councils, the Florida Federation of Labor was called to order in annual session Monday at noon by the President, Max P. Moritz of Tampa, with Secretary Jas. A. Roberts, also of Tampa, at his desk.

President Moritz, in his usual clever and impressive manner, opened the convention with a few remarks, after which prayer was offered by Rev. Thos. P. Hay, pastor of the First Presbyterian church of this city.

Mayor W. R. Thomas was scheduled on the program to make the address of welcome in behalf of the city, but owing to illness he was unable to be present. His place, however, was admirably filled by Attorney E. G. Baxter, who assured the visitors of the heartiest welcome on the part of the people of Gainesville. Col. Baxter stated that the people of this city had anticipated the coming of this aggregation of representatives of the most honorable profession not only of Florida but of the world—labor. He was glad to see so many present, and felt sure he spoke the sentiments of the people when he bade them a cordial welcome.

President Moritz responded very happily to the address of the speaker, assuring him that it was a pleasure to mingle among the good people of Gainesville, and he felt sure that the stay of the delegates here would be a pleasant one, and that the meeting would prove not only enjoyable, but of great benefit to the organization.

Prof. DeBose, principal of the Union Academy, colored, was next presented, and made a most interesting address of welcome to the colored delegates, in behalf of the colored people of Gainesville. During the course of his remarks he took occasion to pay a high compliment to labor, which he termed "a profession without which the Government nor the world could not stand," and he was roundly applauded by the convention.

R. L. Harper, State organizer, a former Gainesville boy who is well known and popular here, was the next speaker. Mr. Harper, although a young man, is a fine and interesting speaker, and made a most impressive talk along the lines of labor, giving a general view of the conditions of organized labor in the State. While he declared that his address was an entirely informal one, that he did not expect to be called upon to make a talk, he was equal to the occasion, and his remarks were well received. Mr. Harper has devoted a great deal of time to organized labor, and is enthusiastic on the subject.

Following Mr. Harper the convention was treated to an interesting talk by W. J. Wilson, general organizer of the Brotherhood of Carpenters and Joiners of America. Mr. Wilson demonstrated the fact that he was a good speaker, and commanded the closest attention. He stated that he was glad at the opportunity of meeting with the Federation in Gainesville, and believed that it was going to prove a good and fruitful meeting.

At the conclusion of Mr. Wilson's remarks the convention had the pleasure of hearing an address from John H. Pomar of St. Augustine, representing the central body. Mr. Pomar is also an interesting speaker, and had many things of interest to say in regard to organized labor.

President Moritz again responded, this time making a nice address in acknowledgment of welcome and other things in general.

A committee on credentials, comprising S. J. Gebhart, Tampa, chairman; John H. Pomar, St. Augustine, J. E. Goddard, Tampa, C. F. Wathan, Carrabelle, and Geo. E. Ross, Jacksonville, was appointed, after which the convention adjourned until 3 p. m.

Afternoon Session.

The afternoon session convened promptly, President Moritz in the chair, and a full delegation present.

The committee on credentials made its report, the delegates were prop-

ly seated, and the convention formally organized.

After formal organization was perfected, the president made his annual address, which was a masterly effort, full of good, common and sound logic. President Moritz is a speaker of no mean ability, and the large crowd listened to him with the closest interest and attention. He is very popular among the organized labor of the State, and is regarded as one of the best friends and most loyal supporters of the Federation.

At the conclusion of the president's address a committee on rules was appointed, as follows:

J. E. Goddard, Tampa, chairman; Mrs. Jennie M. Williams, Palatka; B. F. Waters, Tampa, W. C. Cooper, Jacksonville, G. F. Gibbert, Lakeland.

The convention then adjourned until Wednesday morning at 9 o'clock, when the Federation will get down to business.

After adjournment the executive board held a session, at which matters of interest to the Federation were discussed.

Mass Meeting Tonight.

Local Union No. 1360, Carpenters and Joiners of America, have arranged to hold a citizens' mass meeting at the court house tonight at 8 o'clock, in order that our people may meet the delegates. The meeting is a public one, and a cordial invitation is extended to all, especially the ladies. There will be some fine addresses, some of the leading speakers of the Federation having consented to address the meeting.

Let everybody come.

Chamberlain's Cough Remedy a Safe Medicine for Children.

In buying a cough medicine for children, never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and there is no better medicine in the world for these diseases. It is not only a certain cure for croup, but when given as soon as the croup cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or other harmful drugs, and may be given as confidently to a baby as to an adult. For sale by all druggists.

In the Mayor's Court.

A number of cases were arraigned in the mayor's court Tuesday, and, owing to the illness of Mayor Thomas, the cases were disposed of by Acting Mayor Broome, who is mayor by virtue of his position of president of the city council.

The following cases came up for the consideration of the court:

Tom Harris, George Lumpkin and Minnie Lumpkin, disorderly conduct, were fined \$3.25 and costs each. This seemed to be in the nature of a family row.

William Curtis was arraigned upon a charge of disorderly conduct, but inasmuch as there was not sufficient evidence against him he was discharged.

MARION REMAINS IN WET COLUMN

According to Reports by Telephone From Ocala Tuesday Night.

MAJORITY SEEMS A SAFE ONE

The Wets Were Victorious in Ocala, Dunnellon, Belleview and Other Precincts, Which Gave Them 67 Majority With Five Precincts to Report.

Marion county remains wet, according to reports received in this city up to 9 o'clock Tuesday night over the lines of the East Florida Telephone Company.

The report stated that the wet majority in the county at that hour was sixty-seven. There were only five precincts to hear from, which the report says could not possibly change the result, as all are small precincts. Ocala gave 19 wet majority.

This fight between the prohibition and anti-prohibition forces has been a long and bitter one, both sides claiming victory. The election, which was held Tuesday, created a great deal of interest throughout the State.

BEWARE OF PHYSIC.

Only Aggravates Stomach Trouble and Never Cures.

The trouble with most people who have stomach trouble is that they do not like to take the time to get cured; they overeat and then take physic, which simply upsets the stomach and never cures.

While relief follows one or two doses of Mi-on-a stomach tablets, chronic and long-standing cases need at least two or three weeks' treatment before the sick headaches, dizzy spells, bloating, heartburn, constipation, nervousness and other symptoms that directly result from indigestion are banished never to return.

Mi-on-a is entirely different from the ordinary stomach remedies. It is taken before meals, stimulating the secretion of digestive juices and strengthening the stomach so that it can do its proper work.

With every 50-cent box of Mi-on-a J. W. McCollum & Co. give their guarantee to refund the money unless the remedy cures.

AN IMPORTANT ADDRESS.

Prof. C. R. Thomas of Kansas City Will be at Farmers' Institute.

Among the most important of the visitors to the coming Farmers' Institute, which will be held in this city for three days, beginning February 5, will be Hon. C. R. Thomas of Kansas City, secretary of the American Hereford Breeders' Association, who has been invited to make an address before the institute, and who has accepted.

Mr. Thomas has decided to come through the influence of Manager N. A. Callison, of the Spring Park Stock Farm Company, breeders of Herefords. He is one of the most thoroughly posted cattle men in the country, and his advice and suggestions along the line of beef cattle will no doubt prove of great value to those who hear him. He is a man of high integrity, and well posted in all matters pertaining to cattle, especially of the beef breeds.

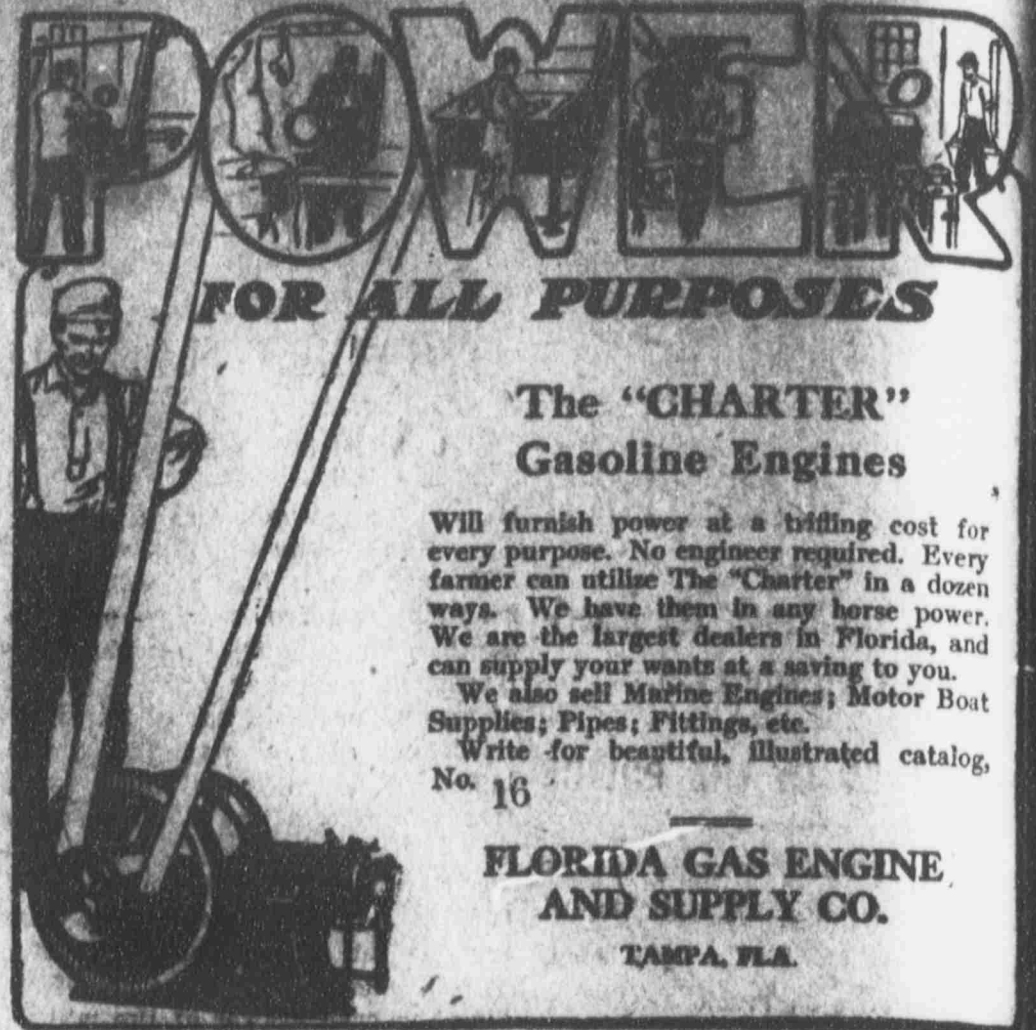

The people of Florida are under obligations to Manager Callison for the exercise of his influence in bringing this famous cattleman here.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Horey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

INTERESTING NOTES FROM UNIVERSITY

Students Are Moving Smoothly and Efficiently at State Institution.

INTEREST IS MANIFESTED

The Faculty in Their Work—Building Connected by Telephone—The Coming Farmers' Institute—Other Notes of Interest.

The last Farmers' Institute held under the auspices of the State Experiment Station was at DeLand, on Saturday, January 18. It was extremely well attended. Addresses were made by Prof. A. W. Blair, and Dr. E. W. Miller, of the Station staff, the first being on his subject "Citrus Soils and Fertilizers," and the second, "The White Fly."

Prof. B. F. Floyd accompanied the speakers to DeLand, although he took no part in the institute. He was met out by the station to gather some information about citrus diseases in that locality.

Students Stephens, Grace, Drane, Rader, Childers and Frel were in DeLand at the same time. They were in attendance upon the second Y. M. C. A. Conference of Florida Students, The University and Stetson. They have been told, were the only institutions represented. Such a cause as this should have attracted at least a representative from all the colleges in the State. It will be remembered that the first of these annual conferences was held last year in Gainesville.

The University library has been greatly enriched during the last few days. Each of the departments of philosophy, pedagogy, modern and classic languages, English, mathematics, history and political economy have been greatly benefited by the purchase of these books. Besides these departments the needs of the general library have not been neglected. Among the long list of books and periodicals ordered are found journals in French, German and Spanish, for the use of advanced students in these languages. For the teaching of pronunciation of the modern languages the 'phone method has been introduced. This system was inaugurated, we believe, at the Naval Academy at Annapolis, and has since been adopted by a large number of the leading schools throughout the country. All indications are that it will prove of great benefit to those wishing to acquire a good pronunciation.

Some of the students in the modern language department have enrolled themselves on the list of the bureau for foreign correspondence. This means that these students are brought into contact with foreign students, to whom they write letters in the language they are studying, receiving

letters in English in reply. This plan has had good results.

All of the sections of Thomas Hall, and the more remote buildings, the green-house, workshops, etc., have been connected by telephone, thus saving the officials of the University many a step.

Preparations are being made for the Florida State Farmers' Meeting, which convenes here on February 5. The session will last three days, and an interesting program has been arranged. Every farmer in the State will find it to his advantage to attend. The program follows:

Wednesday, February 5, 7 p. m.—Address of Welcome, W. R. Thomas, mayor of Gainesville. "Agriculture in the University," Dr. Andrew Sledd, president of the University. "The Florida Live Stock Association," S. H. Gaitskill, president of association, McIntosh. "The Florida Farmer," Prof. F. G. Schell, secretary of the Cotton Growers' Association, Lake Butler.

Thursday, February 6, 9 a. m.—Exhibition of Cattle to be Slaughtered, Dr. C. A. Cary, superintendent Alabama Farmers' Institutes. "The Herefords in Florida," N. A. Callison, Spring Park Stock Farm. "The Herefords on the Range," C. R. Thomas, secretary and representative of the Hereford Association.

Noon—Barbecue, citizens of Gainesville.

2 P. M., February 6—"Stock Raising in Florida," S. H. Gaitskill. "Cattle Raising in the South," Col. W. A. Harris, representing the Shorthorn Association.

7 P. M., February 6—Address by Col. W. R. Goodwin, Breeders' Gazette, Chicago. Stereopticon Lecture, Dr. Andrew M. Soule, President Georgia Agricultural College, Athens. Address to Farmers, Governor Broward.

Friday, February 7, 9 A. M.—"The Cotton Growers' Association," Judge B. H. Palmer, Lake City. "The Farmers' Union," G. N. Trawick, president, Mayo. Exhibition of Slaughtered Cattle, showing good and poor points, Dr. C. A. Cary. "Tick Fever and its Eradication," Dr. E. P. Guerrant, Ocala. "Florida Agriculture," Hon. B. E. McLinn, commissioner of agriculture.

The regular Tuesday morning talk to the students was made this week by Capt. Cox, and his subject was, "A Message to Garcia." He took as the foundation of his lecture the paper prepared on this subject by Expert Hubbard, based on an incident of the Spanish-American War. From this he pointed some important lessons as to the value of prompt, exact, unquestioned obedience in the performance of duty. These Tuesday morning talks are given at 8:05 every Tuesday morning by a member of the University faculty or some specially invited speaker. Visitors are welcome, and those who will make the effort to get out at the rather early hour, will be repaid for so doing.

The system now in use for publishing and keeping record of all military matters relating to the cadet organization, is a model of simplicity and clearness. This is the production of Capt. Cox, after seven years' experience in military matters. It was installed here just after the Christmas holidays.

Dr. Berger, the station entomologist, has returned from a trip in South Florida, where he went to study White Fly conditions. He found the fungi, which is parasitic on the fly, growing and doing effective work in destroying the pest. He sprayed some groves with fungi spores, and is thus striving to spread this natural remedy to one of the most pernicious hindrances to orange growing.

Had a Good Time.

The Senior Class of the Gainesville High School has begun early in making gay their last year. Friday evening, January 17, found this class and their friends gathered at the home of one of their number, Miss Mattie Mae Williams, in North Gainesville. The spacious yard was invitingly arranged with rustic seats, the special feature of the occasion being an oyster roast. Games and music went to make up an enjoyable evening, and at a late hour the moon looked down smilingly on a crowd wending their way slowly homeward.

Bad Stomach Trouble Cured.

Having been sick for the past two years with a bad stomach trouble, a friend gave me a dose of Chamberlain's Stomach and Liver Tablets. They did me so much good that I bought a bottle of them and have used twelve bottles in all. Today I am well of a bad stomach.—Mrs. John Love, Cooper, Maine. These tablets are for sale by all druggists.

Straight Talks on Patent Medicines

The "Rexall" Remedies *deserve* confidence.

As all these remedies are grouped under one name, they must succeed or fail together. There must be no weak links in this chain. One unworthy remedy would mean disaster to the entire plan. If you, for example, purchased the "Rexall" Cough Cure and were not cured by it, how could we expect you to place any faith thereafter in the "Rexall" Dyspepsia Cure or any other member of the "Rexall" family?

You can understand, therefore, why such anxious care was given to finding and choosing the remedies to which the name "Rexall" was given. We have admitted none to this circle until our committee of experts had been convinced by investigation and test that it was the *best remedy known to medical science* for the ailment it aimed to relieve.

Who should know better than the leading thousand druggists of this country what are, and what are not, efficient medicines?

Remember, the success of our enterprise depends on the merit of *each individual* remedy. Our reputation, which is our very business existence is at stake. Can you doubt, that in buying a "Rexall" Remedy, you are buying the best that science and experience can give you?

Here are three prominent members of the "Rexall" family:

REXALL "98" HAIR TONIC

The famous Rexall "98" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Pilocarpin.

Resorcin is one of the latest and most effective germ-killers discovered by a science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob the hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the lodgment and development of new germs.

Pilocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye—it produces its effect by stimulating the scalp and hair follicles to health and active life.

This combination of curatives mixed with alcohol as a stimulant, perfects the most effective remedy for hair and scalp troubles known to-day. Per Bottle, 50c.

REXALL DYSPEPSIA TABLETS

The remarkable success of Rexall Dyspepsia Tablets is largely due to the new and successful method of manufacture, whereby the well known properties of Bismuth Subnitrate and Pepsin have been combined with carminatives and other agents.

Bismuth Subnitrate and Pepsin are recognized by the entire medical profession as specifics for acute indigestion or chronic dyspepsia.

The Pepsin used is manufactured under a new process which develops its greatest efficiency. Pepsin not only supplies to the digestive machinery one of the most important elements of the digestive fluid, but it seems to exert a tonic influence upon the glands which supply all the other elements.

The carminatives add properties which promptly relieve pains caused by undigested food.

The combination of the whole makes a remedy absolutely invaluable to any man or woman suffering from dyspepsia—and not only a remedy, but a *cure* which works by gradually rebuilding and stimulating the glands which perform the digestive functions. Package, 25c.

CHERRY JUICE COUGH SYRUP

A new idea in Cough Syrups. This preparation owes its efficiency to the presence of Wild Cherry, Vinegar Squills, Bonaset, Horehound and Syrup.

All of these have been known for a hundred years as remedies for coughs and hoarseness.

In Rexall Cherry Juice Cough Syrup, all of these remedies have been combined in a process of manufacture that has blended them into a perfect medicinal harmony whereby the characteristics of each support and reinforce the others.

The pathological properties of each ingredient does its own particular work in easing the inflamed membranes, loosening the phlegm and setting up a condition of health in the bronchial and nasal passages.

One spoonful will relieve the inflamed membranes and temporarily stop the cough. One bottle will work a cure. It is exceedingly pleasant to the taste—children like it. Per Bottle, 25c.

Look for this *Rexall Guarantee* on each package: "This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you, and we want you to have it."

FARMERS IN GOOD SHAPE.

Smoke-Houses and Cribs Loaded, They Snap Finger at Speculators.

Tax Collector W. D. Dickinson and Tax Assessor W. W. Colson left Monday for points in the East End on official business, where they will remain for the next few days.

Collector Dickinson, who returned from a tour of the North End and part of the northwest on Saturday, reports fine collections, and says, notwithstanding the farmers have not sold their cotton, their smoke-houses and cribs are full of the choicest to eat, and they will not suffer if they do not dispose of the staple for another year.

"The people are determined," remarked Collector Dickinson. "They have plenty of everything good to eat, are resting easily, and declare when the fellow who wants their cotton decides to pay them a reasonable amount he will get it—and not before."

Why

Should your baby suffer? When he is fretful and restless, don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known worm medicine and cure for children's diseases. It is mild in its action, builds up the system, makes this puffy infant fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain his food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. W. Johnson.

OFF TO PLANT CITY.

State President Rogers and Delegates Off to State Baptist Convention.

Rev. S. B. Rogers, president of the Florida State Baptist Association, together with J. M. Rivers, J. F. Bunch, Mrs. S. B. Rogers, Miss Beattie Bunch and Mrs. E. D. Winn, left Tuesday for

Plant City, where they will attend the annual session of the State Baptist Association.

Dr. Rogers goes as president of the association, while his companions will represent the First Baptist church of this city. They will be absent for three or four days, and anticipate a very enjoyable and beneficial meeting.

RUMORS OF WAR.

There seems to be a determination in some quarters to try and involve the United States and Japan to the verge of war. Everything that is done by either country that can be distorted into warlike preparations is grossly exaggerated, so that the jingoes of either country may be kept in a constant state of excitement. The administration has been the chief culprit by ordering the fleet of battleships to the Pacific Ocean, for it is hardly possible to believe that this extraordinary move was for the domestic political purpose of turning public opinion of the Pacific Coast States towards the perpetuation of the Presidential policies and the selection of delegates to the Republican convention who will vote with the administration. Though it is natural to ask, if that move was not for partisan political effect, what was the object, if not to excite Japan?

As the difficulty about Japanese immigration to the United States can undoubtedly be arranged through the usual diplomatic channels and the question of the open door in Manchuria is merely a matter of trade, with which we have to deal with in China and not Japan, there can be no good reason why both countries cannot maintain the most amicable relations with each other. Both Japan and the United States would lose and neither could possibly gain by a clash of arms. The cost of modern war is enormous, and Japan, at least, would be impoverished after prolonged campaigns. For one thing is certain, that the people of the United States would fight to the bitter end and no peace at any price party would dare to raise its head while such a contest was in progress. The original question in dispute of the admission of Japanese to the public schools in San Francisco, as elsewhere, is entirely a matter of home rule that must be left to the people of each State to solve. The question of the admission of emigrants to the United States of any nationality is for Congress to determine, and the Federal Government to execute such laws as the national legislature may deem best for all the people. War is a calamity that no sensible people resort to unless compelled to defend themselves. But if attacked, "Lay on MacDuff and damned be he who first cries, hold, enough."

The Live Oak Daily Democrat complains that the business men of that town do not give it proper support in the way of advertising patronage. In this the business men of Live Oak are making a grave mistake. It would be a disgrace to the town to permit such a live newspaper to suspend for lack of patronage. "Business is business," however, and the publishers cannot be expected to continue publication unless it is self-sustaining. The editor of The Sun appreciates the situation which confronts the publishers of The Democrat, for he has been confronted with the same situation in years past, and while two or three of our merchants are liberal advertisers at present, the receipts for an entire month's advertising from the business men of this city would not pay the running expenses of The Sun for a single week. Some of you may doubt this statement, but our books will prove it.

The Times-Union of a recent issue devotes considerable space and sympathy to the Florida Seminoles, urging that they be placed on a Western reservation or in some way protected from the encroachment of the merciless white man. The practical extinction of game and the drainage of that stronghold of the redman, the Everglades, are reducing him to beggary. This all sounds very well until you examine the situation at short range and see that the beggar Seminole is about as much "the lord of the soil" as he ever was or ever wants to be. If there were not a white man this side of the Mason and Dixon line this child of nature would be no happier than he is today. An acre of land for his pumpkins and corn, a few hogs on the range, a pony and gun, and he is the king of the earth. There will always be enough Everglades left to yield furs for his needs, and so far as the calamity of game extinction goes he has brought it upon himself, slaying, as he has done and will do, indiscriminately and without a thought for the future. Provide for him if you want to and educate him if you will, but don't worry about him, for he is abundantly able to take care of himself.—Fort Pierce Tribune.

A process has been discovered by which sawdust and "slabs" or the "sap" portion of pine trees can be converted into paper. The process, though not fully developed, it is claimed, has the good promise of success. The sawdust is subjected to a treatment that extracts all the resin and turpentine contained in it, and then it is ground into a pulp. The "slabs" and "sappy" portions of the tree are cut into shavings, and these treated in a similar manner, and from this a good paper stock is produced. If this discovery is proven to be practical, it will mean millions to our Southland gotten out of what has always heretofore been regarded as waste. We shall all watch with no small interest the outcome of this proposition.—Live Oak Democrat.

NATURE SPARES

The Stricken Rose From Grief. What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. HON. H. S. CHUBB OUT FOR TAFT

That Is the Conclusion to Be Deducted from His Statement.

FLORIDA IS ROOSEVELT STATE

But inasmuch as Present Chief Executive Declines to Accept Another Term, Taft Will Be Best Suited as His Successor—A Solid Vote.

According to the statement of Hon. Henry S. Chubb, register of the United States land office, chairman of the Florida State Central Republican executive committee, and one of the Republican party leaders of Florida, the Florida delegation will no doubt throw its entire influence for Wm. H. Taft for the nomination of President of the United States, at the next national convention.

Col. Chubb, with his colleague, Hon. J. N. Coombs of Apalachicola, recently returned from Washington, where they had been summoned on an important political errand. While the mission of this errand had not been made public, it was generally conceded that it was one of great importance, touching upon the coming national political situation, and Tuesday the Sun reporter called upon Col. Chubb in his private office.

The reporter found Col. Chubb in his usual happy frame of mind, clever and entertaining. Realizing that the Republican State convention would soon be held, it was particularly desirable to secure this distinguished gentleman's opinion at this time. At first he was reluctant to talk on matters politic, but was led up to a point of enthusiasm when he was asked if the Republicans of Florida were not for Roosevelt. This immediately kindled his enthusiasm, when he replied:

"Yes, Florida is a Roosevelt State. Every Republican and many Democrats were anxious for Roosevelt to accept another term, and complete the great policies so fraught with great blessings to the American people. His great genius, masterly mind, dominating personality and marvelous courage, make him the greatest American of today, and the most important personage of the world. Under his powerful and forceful leadership the Panama canal would be quickly completed, the gigantic trusts controlled, the pure food law enforced, and railroad corporations regulated.

"But ah! The President's last declaration that he would not accept the nomination again directs our minds to another candidate. There is no question but that the best qualified statesman now before the people is Wm. H. Taft—a man of great brain and strong character, and marvelous executive ability, of judicial temperament, and thoroughly imbued with Roosevelt's policies. In view of these facts, he is best fitted to carry out the President's policies, and I feel confident that the Florida delegation will be solid for Wm. H. Taft."

The Swine and the Flower

Oh me! I saw a huge and loathsome sty,
Wherein a drove of wallowing swine
were barred,
Whose banquet shocked the nostril and
the eye;
Then spoke a voice, "Behold the source
of lust!"
I fled, and saw a field that seemed at first
One glistening mass of roses pure and
white,
With dewy buds 'mid dark green foliage
nursed;
And, as I lingered o'er the lovely sight,
The summer breeze, that cooled that
Southern scene,
Whispered, "Behold the source of
COTTOLENE!"

NEWS OF CITY AND COUNTY CONDENSED

Dr. Geo. S. Waldo will open dental parlors in the Graham building, East Main street. Dr. Waldo comes to Gainesville with the highest recommendation, and The Sun bespeaks for him a liberal share of the public patronage. His advertisement will be found in another column of today's paper.

C. W. d'Martine, special revenue collector, has returned to this city from Ocala, Cedar Key and other points, where he has been on official business for the past few days. He reports a good trip, and declares the merchants of the towns he visited were in fine condition, and enjoying a good trade.

Hon. R. Hudson Burr, J. L. Morgan and N. A. Blitch, members of the Railroad Commission, have arrived in the city, and this morning at 9 o'clock, at the court house, will meet representatives of the Atlantic Coast Line and the Seaboard Air Line in the matter of establishing more adequate facilities at their respective depots for the convenience of the traveling public.

The Jeavons Dramatic Company entertained another large audience at their big tent last night, the bill being that romantic and touching drama, "Driven from Home." The company will appear here during the remainder of the week. As a compliment to the State Federation of Labor, now in session here, on Thursday night there will be a special bill, the company rendering a thrilling play entitled "The Working Girl's Wrongs."

C. W. Wells of Alachua, one of the leading farmers of that section, was among those who spent Monday in this city. Through the generous courtesy of Mr. Wells, the editor and city editor of The Sun have been brought back to their boyhood days, as they have once more had the opportunity of testing the delicious flavor of the "good old country ham." Mr. Wells has a large range, and raises some of the finest hogs in the country. His smoke-house is always well filled with the choicest meat.

WINDSOR PARTY.

Thursday night at their home, Mr. and Mrs. John Torode, Sr., gave one of the most enjoyable parties of the season. They entertained in honor of their son and daughter, Mr. and Mrs. Chas. Weekly of Lynchburg, Va., and Miss Alice Weekly, a sister of Mr. Weekly, also of Lynchburg.

The guests gathered promptly at 8 o'clock and were all made welcome by the gracious host and hostess.

Many interesting games and contests made the time pass merrily and quickly to the happy participants. Later the guests repaired in couples to the dining-room, where a pleasing scene met the eye. The table was a thing of beauty, with its snowy damask and glittering cut glass. The appointments were perfect in every way. Refreshments of delicious cakes, fruits and ices were served.

About thirty-five guests enjoyed the hospitality of Mr. and Mrs. Torode, and will join in the wish that they may have such another treat in store for them soon.

After paying their respects to the host and hostess, all wended their way to their respective homes with the smiling moon to light their way.

Detective W. B. Cahoon, while chasing a negro in Jacksonville who was supposed to be a thief, was run over by a heavy truck wagon. He fell under the wagon, the front wheel passing over his left leg, breaking it below the knee.

A large turpentine still at Punta Gorda was blown up Wednesday morning, horribly burning a negro named Tom Hicks who was standing on the platform. The still was a complete loss. The negro has only a fighting chance for life.

Mrs. Berta Wooster, who is now visiting in St. Petersburg, is happy over the return of her lost gems which amounted to \$1,500. On her way from Jacksonville to St. Petersburg she lost her purse containing eight diamond rings. They were found by the porter on the train and turned over to Conductor Knapp. He sent them to the railway's official headquarters, and when a search was instituted and the property identified, the diamonds were returned to their owner.

RUMORS OF WAR.

There seems to be a determination in some quarters to try and involve the United States and Japan to the verge of war. Everything that is done by either country that can be distorted into warlike preparations is grossly exaggerated, so that the jingoism of either country may be kept in a constant state of excitement. The administration has been the chief culprit by ordering the fleet of battleships to the Pacific Ocean, for it is hardly possible to believe that this extraordinary move was for the domestic political purpose of turning public opinion of the Pacific Coast States towards the perpetuation of the Presidential policies and the selection of delegates to the Republican convention who will vote with the administration. Though it is natural to ask, if that move was not for partisan political effect, what was the object, if not to excite Japan?

As the difficulty about Japanese immigration to the United States can undoubtedly be arranged through the usual diplomatic channels and the question of the open door in Manchuria is merely a matter of trade, with which we have to deal with in China and not Japan, there can be no good reason why both countries cannot maintain the most amicable relations with each other. Both Japan and the United States would lose and neither could possibly gain by a clash of arms. The cost of modern war is enormous, and Japan, at least, would be impoverished after prolonged campaigns. For one thing is certain, that the people of the United States would fight to the bitter end and no peace at any price party would dare raise its head while such a contest was in progress. The original question in dispute of the admission of Japanese to the public schools in San Francisco, as elsewhere, is entirely a matter of home rule that must be left to the people of each State to solve. The question of the admission of emigrants to the United States of any nationality is for Congress to determine, and the Federal Government to execute such laws as the national legislature may deem best for all the people. War is a calamity that no sensible people resort to unless compelled to defend themselves. But if attacked, "Lay on MacDuff and damned be he who first cries, hold, enough."

The Live Oak Daily Democrat complains that the business men of that town do not give it proper support in the way of advertising patronage. In this the business men of Live Oak are making a grave mistake. It would be a disgrace to the town to permit such a live newspaper to suspend for lack of patronage. "Business is business," however, and the publishers cannot be expected to continue publication unless it is self-sustaining. The editor of The Sun appreciates the situation which confronts the publishers of The Democrat, for he has been confronted with the same situation in years past, and while two or three of our merchants are liberal advertisers at present, the receipts for an entire month's advertising from the business men of this city would not pay the running expenses of The Sun for a single week. Some of you may doubt this statement, but our books will prove it.

Gainesville now has a dairy of thoroughbred Jerseys, and the folks down there are getting copious supplies of good milk. Jersey milk and pure water are beverages enough for any good people.—Live Oak Democrat. You should have said "another dairy of thoroughbred Jerseys." The Times-Union of a recent issue devotes considerable space and sympathy to the Florida Seminoles, urging that they be placed on a Western reservation or in some way protected from the encroachment of the merciless white man. The practical extinction of game and the drainage of that stronghold of the redman, the Everglades, are reducing him to beggary. This all sounds very well until you examine the situation at short range and see that the beggar Seminole is about as much "the lord of the soil" as he ever was or ever wants to be. If there were not a white man this side of the Mason and Dixon line this child of nature would be no happier than he is today. An acre of land for his pumpkins and corn, a few hogs on the range, a pony and gun, and he is the king of the earth. There will always be enough Everglades left to yield furs for his needs, and so far as the calamity of game extinction goes he has brought it upon himself, slaying, as he has done and will do, indiscriminately and without a thought for the future. Provide for him if you want to and educate him if you will, but don't worry about him, for he is abundantly able to take care of himself.—Fort Pierce Tribune.

A process has been discovered by which sawdust and "slabs" or the "sap" portion of pine trees can be converted into paper. The process, though not fully developed, it is claimed, has the good promise of success. The sawdust is subjected to a treatment that extracts all the resin and turpentine contained in it, and then it is ground into a pulp. The "slabs" and "sappy" portions of the tree are cut into shavings, and these treated in a similar manner, and from this a good paper stock is produced. If this discovery is proven to be practical, it will mean millions to our Southland gotten out of what has always heretofore been regarded as waste. We shall all watch with no small interest the outcome of this proposition.—Live Oak Democrat.

NATURE SPARES

The Stricken Rose From Grief. What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

H. S. CHUBB OUT FOR TAFT

That Is the Conclusion to Be Deducted from His Statement.

FLORIDA IS ROOSEVELT STATE

But inasmuch as Present Chief Executive Declines to Accept Another Term, Taft Will Be Best Suited as His Successor—A Solid Vote.

According to the statement of Hon. Henry S. Chubb, register of the United States land office, chairman of the Florida State Central Republican executive committee, and one of the Republican party leaders of Florida, the Florida delegation will no doubt throw its entire influence for Wm. H. Taft for the nomination of President of the United States, at the next national convention.

Col. Chubb, with his colleague, Hon. J. N. Coombs of Apalachicola, recently returned from Washington, where they had been summoned on an important political errand. While the mission of this errand had not been made public, it was generally conceded that it was one of great importance, touching upon the coming national political situation, and Tuesday the Sun reporter called upon Col. Chubb in his private office.

The reporter found Col. Chubb in his usual happy frame of mind, clever and entertaining. Realizing that the Republican State convention would soon be held, it was particularly desirable to secure this distinguished gentleman's opinion at this time. At first he was reluctant to talk on matters politic, but was led up to a point of enthusiasm when he was asked if the Republicans of Florida were not for Roosevelt. This immediately kindled his enthusiasm, when he replied:

"Yes, Florida is a Roosevelt State. Every Republican and many Democrats were anxious for Roosevelt to accept another term, and complete the great policies so fraught with great blessings to the American people. His great genius, masterly mind, dominating personality and marvelous courage, make him the greatest American of today, and the most important personage of the world. Under his powerful and forceful leadership the Panama canal would be quickly completed, the gigantic trusts controlled, the pure food law enforced, and railroad corporations regulated.

"But ah! The President's last declaration that he would not accept the nomination again directs our minds to another candidate. There is no question but that the best qualified statesman now before the people is Wm. H. Taft—a man of great brain and strong character, and marvelous executive ability, of judicial temperament, and thoroughly imbued with Roosevelt's policies. In view of these facts, he is best fitted to carry out the President's policies, and I feel confident that the Florida delegation will be solid for Wm. H. Taft."

The Swine and the Flower

Oh me! I saw a huge and loathsome sty,
Wherein a drove of wallowing swine
were barred,
Whose banquet shocked the nostril and
the eye;
Then spoke a voice, "Behold the source
of lard!"
I fled, and saw a field that seemed at first
One glistening mass of roses pure and
white,
With dewy buds 'mid dark green foliage
nursed;
And, as I lingered o'er the lovely sight,
The summer breeze, that cooled that
Southern scene,
Whispered, "Behold the source of
COTTOLENE!"

NEWS OF CITY AND COUNTY CONDENSED

Dr. Geo. S. Waldo will open dental parlors in the Graham building, East Main street. Dr. Waldo comes to Gainesville with the highest recommendation, and The Sun bespeaks for him a liberal share of the public patronage. His advertisement will be found in another column of today's paper.

C. W. d'Martine, special revenue collector, has returned to this city from Ocala, Cedar Key and other points, where he has been on official business for the past few days. He reports a good trip, and declares the merchants of the towns he visited were in fine condition, and enjoying a good trade.

Hon. R. Hudson Burr, J. L. Morgan and N. A. Blitch, members of the Railroad Commission, have arrived in the city, and this morning at 9 o'clock, at the court house, will meet representatives of the Atlantic Coast Line and the Seaboard Air Line in the matter of establishing more adequate facilities at their respective depots for the convenience of the traveling public.

The Jeavons Dramatic Company entertained another large audience at their big tent last night, the bill being that romantic and touching drama, "Driven from Home." The company will appear here during the remainder of the week. As a compliment to the State Federation of Labor, now in session here, on Thursday night there will be a special bill, the company rendering a thrilling play entitled "The Working Girl's Wrongs."

C. W. Wells of Alachua, one of the leading farmers of that section, was among those who spent Monday in this city. Through the generous courtesy of Mr. Wells, the editor and city editor of The Sun have been brought back to their boyhood days, as they have once more had the opportunity of testing the delicious flavor of the "good old country ham." Mr. Wells has a large range, and raises some of the finest hogs in the country. His smoke-house is always well filled with the choicest meat.

WINDSOR PARTY.

Thursday night at their home, Mr. and Mrs. John Torode, Sr., gave one of the most enjoyable parties of the season. They entertained in honor of their son and daughter, Mr. and Mrs. Chas. Weekly of Lynchburg, Va., and Miss Alice Weekly, a sister of Mr. Weekly, also of Lynchburg.

The guests gathered promptly at 8 o'clock and were all made welcome by the gracious host and hostess.

Many interesting games and contests made the time pass merrily and quickly to the happy participants. Later the guests repaired in couples to the dining room, where a pleasing scene met the eye. The table was a thing of beauty, with its snowy damask and glittering cut glass. The appointments were perfect in every way. Refreshments of delicious cakes, fruits and ices were served.

About thirty-five guests enjoyed the hospitality of Mr. and Mrs. Torode, and will join in the wish that they may have such another treat in store for them soon.

After paying their respects to the host and hostess, all wended their way to their respective homes with the smiling moon to light their way.

SHORT STATE ITEMS

Visitors are arriving in Orlando at the rate of twenty-five per day, says The Reporter-Star of that city.

Members of the Catholic church of St. Petersburg are taking steps towards the erection of a new church building.

Elaborate preparations are being made for the holding of the annual convention of the Florida Bankers' Association, which will be held in St. Petersburg.

Live Oak will probably have a shirt factory, as some of her public-spirited citizens are in communication with an experienced manufacturer with that view in mind.

An old negro was accidentally killed in Live Oak Thursday night by a freight train running over him. It is supposed that the old man was deaf and did not hear the train approaching.

Rev. Gray, pastor of the St. Petersburg Episcopal church, will visit the Old Country some time soon off the earnings of a life insurance policy that he has been carrying for many years.

Detective W. B. Cahoon, while chasing a negro in Jacksonville who was supposed to be a thief, was run over by a heavy truck wagon. He fell under the wagon, the front wheel passing over his left leg, breaking it below the knee.

A large turpentine still at Punta Gorda was blown up Wednesday morning, horribly burning a negro named Tom Hicks who was standing on the platform. The still was a complete loss. The negro has only a fighting chance for life.

Mrs. Berta Wooster, who is now visiting in St. Petersburg, is happy over the return of her lost gems which amounted to \$1,500. On her way from Jacksonville to St. Petersburg she lost her purse containing eight diamond rings. They were found by the porter on the train and turned over to Conductor Knapp. He sent them to the railway's official headquarters, and when a search was instituted and the property identified, the diamonds were returned to their owner.

MUCH INTEREST IN THE RACES

Amusement Attractions Will be Especially Interesting This Year—Great Wrestling Tournament of World's History, for Purse of \$20,000.

Special Correspondence The Daily Sun.

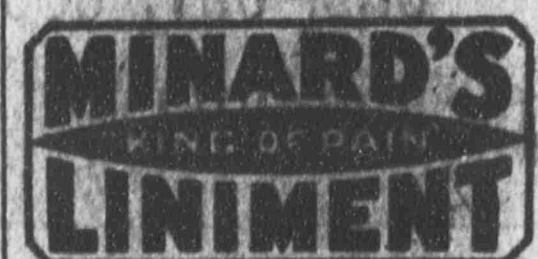

Tampa, Fla., Jan. 21.—The varied agricultural, horticultural, live stock, educational, mineral and industrial products of twenty-three of Florida's most magnificent counties, together with products of every kind sent in by scores of individual producers, representing every section of the State, is what Floridians and thousands of home-seeking visitors from other States will see on exhibition in the nine big buildings of the Florida State Fair, which will be held at Tampa from February 5 to 22. Even at this late date it is expected that several other counties, owing to the magnificent premiums offered and the immense attendance that will be in evidence, will fall into line; but without additions there will be represented at the fair a larger number of counties than have ever been represented at any former State Fair in the country. The array of products will be superior to that seen at the Jamestown Exposition, according to the leading railway officials of Florida, and others who attended the exposition.

In addition to the grand array of products exhibited, the amusement attractions will also be superior to any hitherto presented at any State fair, large or small, the directors of the fair having determined to spare no expense in making the coming fair a crowning success in every feature. Fully 800 of the fastest running horses in the country, twice the number that was expected, will have arrived in the city before the end of the month in order to compete for purses amounting to \$25,000, offered for races during the great sixteen-day meeting, half that number having already arrived at the track, which is the fastest half-mile track in the country. Whereas the original estimate of cost of putting on the great circus and hippodrome was \$50,000, the sum of \$5,000 has been added to secure several additional European and Oriental acts. Every show to be seen on the amusement street will be absolutely new and novel, not one having been seen in the South before being engaged. A most notable sporting feature arranged only this week will be the greatest wrestling tournament of the world's

history, lasting eight days and arranged by Frank B. Barnes, the noted theatrical magnate of Chicago. Purses amounting to \$20,000 will be awarded to the victors in this clean and magnificent sport, in which the champions of all classes of America, Germany, France, Scotland, Japan, Russia, Italy, Greece and other foreign countries will compete. The championship of each class, including the great Japanese style of wrestling, known as Jiu Jitsu, will be decided in Tampa on those days.

The fair will be officially opened at the noon hour of Wednesday, February 5th, by Governor N. B. Broward, and from that day on merriment will reign supreme. A large number of the most famous statesmen and diplomats of America, Germany, Italy, Spain and other foreign countries will visit the city while the fair is in progress, and each ambassador will be accompanied to the local port by a warship from his own country. Special days and special events of indescribable magnificence will mark the entire period, for which Tampa's hotels, boarding houses and private citizens have prepared to care for a larger number of visitors than ever attended a fair or exposition in the South.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

THE NEWS FROM MELROSE.

Melrose, January 21.—Tax Collector E. N. Holt of Clay county was in town Wednesday on business. While here he inspected the Masonic lodge-room, and expressed himself very much pleased with it. Several of the Melrose brethren expect to be present at the meeting of the Grand Lodge in Jacksonville Tuesday.

J. J. Shannon reports having ginned so far 140 bales, with two or three more to come.

Rev. D. L. Branning of Waldo preached on Sunday morning at the Methodist church in place of Rev. Barr, the pastor in charge.

Among the visitors in town are Miss M. Owens, Atlanta, and B. Perkins, Mt. Airy, Ga. Quite a party arrived at the Bay View Cottage on Friday, consisting of Mrs. O. Waters, Chicago; Rev. and Mrs. John A. Waters and children, Juncosville, Pa.; Miss H. J. Bailey, Uniontown, Pa., and Miss McLane, Pittsburg, Pa.

The annual business meeting of the Ladies' Literary and Debating Society will be held at their hall on February 7th.

Miss A. DeSha of Waldo is visiting at T. A. Birt's.

Rev. Chas. B. Hedrick will hold evening services at Trinity church on Sunday, January 26.

FROM THE ANTILLES.

Chamberlain's Cough Remedy Benefits a City Councilman at Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the city council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain another bottle." For sale by all druggists.

NEWBOYS SHOUTED "WAR."

Were Arrested by Police for Sensation at Cries in Order to Sell Papers.

Chicago, Jan. 21.—Eleven newboys were arrested Sunday night for shouting:

"War is declared between the United States and Japan."

The boys for hours had gone through the streets giving utterance to the sensational yells. They were selling a weekly newspaper and meeting with a large sale until victimized persons called up the police. The boys were released after having been warned.

Carrie Nation

Certainly smashed a hole in the bar-rooms of Kansas, but Ballard's Horehound Syrup has smashed all records as a cure for coughs, bronchitis, influenza and all pulmonary diseases. T. C. H.—, Horton, Kansas, writes: "I have never found a medicine that would cure a cough so quickly as Ballard's Horehound Syrup. I have used it for years." Sold by W. M. Johnson.

Knoxville City Election.

Knoxville, Tenn., Jan. 21.—In the city election held here Saturday Captain John M. Brooks, democrat, was elected mayor; John Fenniken, chairman of the board of public works; William Brakehill and R. B. Ragsdale, assistant members of the board. The last two named are members of the citizen's reform party, which therefore keeps control of the police and fire department.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

Bodies of Drowned Skaters Found.

Worcester, Mass., Jan. 21.—The bodies of Peter Caplett and Miss Annie Marler, who were drowned while skating on a pond here on Saturday were found Sunday. It is thought that they skated into open water in the dark. When found, the young people were clasped in each other's arms. They were to have been married in a fortnight.

The Price of Peace.

The terrible killing and maiming incident to certain this disease, is almost instantly allayed by applying Chamberlain's Salve. Price 25 cents. For sale by all druggists.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Bright Sunday at Coney Island.

New York, Jan. 21.—Bright sunshine and balmy breezes made Coney Island Sunday look almost as it does in the summer time. It is estimated that 20,000 people went to the island, and all the hotels, restaurants, small shows and dance halls did a rushing business. The streets were crowded and scores of street fakirs and vendors were out to sell to the crowd frankfurters and the novelties without which Coney Island would lose half its charm.

WHERE IS MISS CAMPBELL?

Mystery Surrounds Disappearance of Handsomely Gowned Woman.
New York, Jan. 20.—Because in her room among her effects was a candy box bearing the label of H. L. Schlesinger, candy manufacturer, Atlanta, detectives think they have a clue to the mystery of a finely attired and apparently wealthy woman wearing many valuable diamonds, who was a guest at the Hotel Majestic, Broadway and Seventy-second street, for several days, up till the afternoon of Christmas day, when, saying she was going for a walk in Central park, she mysteriously disappeared, and has not since been seen, though her baggage, a large, finely made dress suit case, filled with fine outer and under garments, together with some jewelry and expensive toilet articles, was left in the room, and her room was kept for her in expectation of her returning.

She gave her name as Miss Virginia Campbell, and her address very indistinct—looking something like "Cortezado." She was well supplied with money, and had paid one bill to the hotel promptly.

Fearing murder or suicide in the loneliness of the park on a winter afternoon, the police have caused a search of the groves and hedges and the lakes to be dragged, without result yet.

LAYMEN TO MEET.

Largest and Most Important Church Gathering Ever Held in South.

Chattanooga, Tenn., Jan. 20.—Definite program has been arranged for the coming Methodist laymen's conference that will convene in Chattanooga in April. Among the speakers are W. J. Bryan, Justice David J. Brewer, Bishop Candler and others of equal prominence.

Other speakers whose dates have not been definitely arranged will be Bishop W. A. Candler of Atlanta, S. B. Capen of Boston, J. Campbell White of New York, W. T. Ellis of The Philadelphia Press, Rev. D. L. Anderson, of China, Dr. T. F. Staley of Bristol, Tenn., T. B. King of Memphis, Tenn., and others.

The meetings promise to be the largest and among the most important church gatherings ever held in the south. Representation has been so apportioned among the southern Methodist churches that the attendance can scarcely fall below 1,200 from Virginia and Maryland to California.

Silver Service Presentation.

New Orleans, Jan. 20.—At a general reception attended by practically all Kentuckians in New Orleans, a delegation of citizens from Paducah, Ky., Friday formally presented a handsome silver service to the gunboat which bears the name of their city. The presentation was made on board the Paducah, anchored in the Mississippi river at New Orleans. Former Congressman Charles K. Wheeler of Kentucky made the presentation speech, and the service was accepted in the name of the officers and men in the person of Commander Thomas D. Griffin. Miss Anna Mae Yeiser, a daughter of former Mayor D. H. Yeiser of Paducah, acted as the sponsor for the occasion.

Did Police Chief Suicide?

Darlington, S. C., Jan. 21.—About 10 o'clock Sunday morning A. B. Darlan, chief of police of this place, was found dead in a room adjacent to his bed chamber. There was a bullet hole in his forehead and a revolver of large caliber was found near his right hand, the chamber being discharged. The circumstances seem to point to suicide, though no reason for such action can be assigned. The coroner's jury had an inquest, but adjourned until Thursday for further consideration.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble, as it corrects irregularities and prevents Bright's disease and diabetes. J. W. McCollum & Co.

ATLANTA CHEF MISSING.

His Relatives Fear He Has Met With Foul Play.

Cincinnati, O., Jan. 20.—Mrs. E. Lol, of this city, reported to the police the mysterious disappearance from Cincinnati, on New year's day, of Emil Ledoyne, of Atlanta, Ga., a chef. Ledoyne is her brother.

On New year's eve Ledoyne came to Cincinnati from Atlanta to visit his sister, whom he had not seen for 12 years. He remained at the house over night, and went out the next day for a walk, but never returned. He left his clothing and quite a considerable amount of money in Mrs. Lol's care. She has been making inquiries at all hospitals since then, without being able to find any trace of him. She fears that he may have met with foul play.

For Thirty Years a Fugitive.

Des Moines, Iowa, Jan. 21.—After having been a fugitive for nearly thirty years, William Pickard has been apprehended in Conroe, Tex. Pickard is charged with the murder of William Teets, at Lettsville, Iowa, in 1879. Pickard was identified by an officer sent from Iowa, and will be brought back and placed on trial at once. Through all the years following the killing a brother of the murdered man persisted in a search for Pickard, which has finally proven successful.

How to Avoid Pneumonia.

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. J. W. McCollum & Co.

Atlanta Pioneer Dead.

Atlanta, Jan. 21.—Captain V. P. Sisson, an Atlanta pioneer, one of the oldest editors and publishers in the south, a native of Georgia and a confederate veteran, died at his home in Kirkwood Sunday afternoon. Captain Sisson was a native Georgian and had long been identified with the interests of Atlanta. He was connected with several Atlanta newspapers during the seventies, but for the past decade had conducted a job printing establishment. He was greatly esteemed.

Described by a Man Who Had Taken Poison.

New York, Jan. 21.—Samuel R. Wingfield, a member of company G. Seventy-first regiment, who is said to be a member of a well known Baltimore family, was found dead in his room from poison.

Wingfield after taking poison, wrote several short letters in which he described his sensations as the poison overcame him. Lack of funds and loss of employment was the cause given for his act.

Ship's Mate Disappears.

Savannah, Ga., Jan. 21.—The steamship Irmigard, Captain Braue, arrived Sunday from Bremen. Captain Brauer reported the loss of Third Mate Ruehmke on Christmas eve, just as the vessel was passing out of the mouth of the river Weser. No one knew whether he had committed suicide or fallen or been thrown overboard. The mate was engaged to be married to a girl in Germany.
